This has been another exciting year for the American College of Nutrition (ACN) – our 54th year in existence. The ACN can point to a wonderful past, but the future looks even brighter. It is becoming more apparent with the passing of time that an increasing number of individuals from all backgrounds are becoming aware of the importance of nutrition – so important in fact, that even politicians are entering our domain. Accordingly, this makes an ideal situation for the ACN to get out the correct information. With this in mind, we are developing an outstanding program for the annual meeting to be held in San Diego, CA from November 13-16. From the program material below, you will see a top-notch list of presentations given by an outstanding group of presenters. Two keynote presentations will be given by Drs. Artemis Simopoulos on epigenetics and Jeff Bland on metagenomics. Dr. Beverly Teter will discuss the role of ketogenic diets in anti-inflammatory intervention; Dr. Richard Anderson, our newest MACN, will discuss the role of natural supplements in overcoming insulin resistance; and Dr. Joan Ifland will further enlighten us on the possibility of refined food addiction. If you like controversy, Dr. Stephen Sinatra will lead a symposium that will discuss statins and the cholesterol theory. It is with great pleasure that I invite you to register for the program. Your participation is important. I wholeheartedly believe your involvement would be beneficial to both you and the ACN.

San Diego is an exciting city with a multitude of interesting attractions. In addition to attending the meeting, nurturing fellowship, and networking, this would be a wonderful venue for your family. I look forward to seeing you and your family at what promises to be an outstanding 54th anniversary meeting!

Sincerely yours,

Harry G. Preuss, MD, MACN, CNS
ACN President

Overall Conference Learning Objectives:
As a result of participating in this conference, clinicians will be better able to evaluate and recommend nutritional therapies based on the clinical impact of the following controversies:
1. How changes in the food supply affect our genes, immune system, metabolism, and eating behavior
2. The pathologic and therapeutic role of the microbiome
3. The role of diet, drugs and supplements in cardiovascular disease prevention, inflammation and overall health
4. The connection between nutrition and pain management
5. The bias in scientific dogma, economics and politics on nutrition research
CONTINUING EDUCATION CREDITS
MDs and DOs: The American College of Nutrition (ACN) is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. ACN designates this educational activity for a maximum of 19 AMA PRA Category 1 Credits™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

CNS® and RD: The Certification Board for Nutrition Specialists authorizes up to 19 CNE credit hours for Certified Nutrition Specialists®. Continuing education (CE) credit hours, up to 19 hours, will be authorized by the Commission on Dietetic Registration for Registered Dietitians.

EDUCATIONAL DISCLAIMER
The primary purpose of this conference is education. Information, research, publications, technologies, products and/or services discussed, are intended to inform the attendees about the knowledge, techniques, research and experiences of speakers who are willing to share such information with their colleagues. The faculty's views neither represent those of the American College of Nutrition nor constitute endorsement by the organization. The American College of Nutrition denies any and all liability for damages to any individual attending this conference and for all claims, which may result from the use of information, publications, technologies, products, and/or services of the meeting. Faculty disclosure statements are required from the speakers and will be presented in the conference materials.

AMERICAN COLLEGE OF NUTRITION CME MISSION STATEMENT
The mission of the American College of Nutrition (ACN) is to improve the quality of nutrition care by enhancing nutrition education for physicians. An integral part of ACN’s education activities is providing opportunities to fill in the gaps in the current medical school curriculum as well as ongoing post-graduate training. The goal of this training is to enhance nutrition and metabolism knowledge and to promote the application of such knowledge in clinical practice for the prevention and treatment of disease.

The program’s scope includes, but is not limited to the following types of activities:
• Educational conferences, webinars, and other related activities
• Forums for the exchange of views, professional and educational experiences, and research results in the general field of nutrition
• Work with educators to encourage the incorporation of a strong, clearly defined nutrition teaching module in the curriculum of all medical schools

The audience for these activities includes physicians, medical students, nutritionists, nutrition researchers, and nutrition educators.

The desired result of these activities is improvement in physician understanding, knowledge, and competence in the practice of nutrition in the treatment and prevention of disease.

PROGRAM CHAIRS: Beverly Teter, PhD, CNS, MACN and Robert A. Bonakdar, MD
PROGRAM COORDINATOR: Santa Henriquez
Pre-Conference Activities
Wednesday, November 13, 2013

2:00 p.m. On Site Meeting Registration - East Glass Windows
Viewing of Scientific Posters and Exhibits – Pavilion Room

6:30-  Opening Reception - South Poolside
7:30 p.m. Wine and Hor d’oeuvres

President’s Convocation and Program Chair Welcome
Harry G. Preuss, MD, MACN, CNS and Beverly Teter, PhD, CNS, MACN

7:30-   Opening Reception Lecture
9:30 p.m. MEDIA AWARD - Why We Get Fat - Gary Taubes, MS Oakland, California

Thursday, November 14, 2013

7:00 a.m.  Breakfast – Hotel Guest Only – Pavilion Room

7:30 a.m.  On Site Meeting Registration - East Glass Windows
Viewing of Scientific Posters and Exhibits – Pavilion Room

8:00 a.m. President’s Welcome - Harry G. Preuss, MD, CNS, MACN
International Ballroom

SYMPOSIUM I: How Do Changes in Our Food Supply Affect Our Genes?
International Ballroom
Moderator: Artemis Simopoulos, MD, FACN. The Center for Genetics and Nutrition and Health, Washington, DC.

Learning objectives:
• Evaluate and recommend nutritional therapies based on emerging data regarding the role of epigenetics
• Evaluate and recommend nutritional therapies for prevention and management of cancer based on epigenetic factors
• Evaluate and recommend individualized nutritional therapies for disease prevention and management based on the role of the microbiome
• Recommend dietary therapies for prevention and management of cardiovascular disease based on the findings of the Mediterranean Diet study

8:15 a.m.  Keynote Presentation: Epigenetics Overview
Artemis Simopoulos, MD, FACN.
The Center for Genetics and Nutrition/Health, Washington, DC.

9:00 a.m.  The Role of Epigenetics in Development
Rita Raman, MD, MACN
University of Oklahoma Health Sciences Center, Oklahoma City, Oklahoma.

9:45 a.m.  The Role of Epigenetics in Cancer
Alex Vasquez, ND, DC, FACN - Portland, Oregon.
Thursday, November 14, 2013 - Continued

10:30 a.m. Break and Viewing of Scientific Posters and Exhibits – Pavilion Room

11:00 a.m. KEYNOTE PRESENTATION: Metagenomics: Role of Microbiome
Jeffrey Bland, PhD, CNS, FACN - Personalized Lifestyle Medicine Institute, Seattle, Washington.

11:45 a.m. Q&A/Panel Discussion and Practical Applications

12:15 p.m. Box Lunch – South Poolside
Viewing of Scientific Posters and Exhibits - Pavilion Room International Ballroom

SYMPOSIUM II: Cholesterol Controversy
International Ballroom
Moderators: Stephen Sinatra, MD, FACN, CNS. Manchester, Connecticut and Beverly Teter, PhD, MACN, CNS. Faculty Research Associate, College Park, Maryland.

Learning objectives:
• Address the root causes of cardiovascular disease with nutritional therapies
• Counteract the negative effects of statin medications with nutritional therapies
• Utilize statins effectively in conjunction with nutraceuticals

1:15 p.m. KEYNOTE and GRACE GOLDSMITH AWARD PRESENTATION:
Mediterranean Diet: Miguel Angel Martinez Gonzalez, MD. Department of Preventive Medicine, University of Navarra, Spain.

2:00 p.m. The Great Cholesterol Myth: The Truth About Cholesterol and Cardiovascular Disease
Stephen Sinatra, MD, CNS, FACN. Manchester, Connecticut and Jonny Bowden, PhD, CNS. Woodland Hills, California.

2:45 p.m. Statin Side Effects and Risk-Benefit
Beatrice A. Golomb, MD, PhD. University of San Diego, La Jolla, California.

3:30 p.m. Break and Viewing of Scientific Posters and Exhibits - Pavilion Room

4:00 p.m. Nutrition and Nutraceutical Supplements for the Treatment of Dyslipidemia and Related Vascular Disease
Mark Houston, MD, FACN. Vanderbilt University School of Medicine, Hypertension Institute of Nashville, Nashville, Tennessee.

4:45 p.m. Q & A/Panel Discussion and Practical Applications

5:15 p.m. Adjourn
**SYMPOSIUM III: Pain, Inflammation, and Nutrition**
*International Ballroom*
Moderators: Robert A. Bonakdar, MD. Scripps Center for Integrative Medicine, La Jolla, California and Nancy Cotter, MD, FACN. Morristown, New Jersey.

Learning Objectives:
- Choose appropriate nutritional interventions for patients with inflammatory diseases
- Evaluate nutrient depletion resulting from chronic pain and select appropriate dietary therapy

| 10:15 a.m. | Pain and Nutritional Depletion  
Michael Stone, MD. Ashland, Oregon. |
| 10:45 a.m. | Dietary-Induced Analgesia  
Yoram Shir, MD. McGill University Health Center, Montreal General Hospital, Montreal Quebec, Canada. |
| 11:15 a.m. | Q & A/Panel Discussion and Practical Applications |
| 11:45 am | Box Lunch – South Poolside  
Viewing of Scientific Posters and Exhibits - Pavilion Room |
**SYMPOSIUM IV: Balancing the Inflammatory Process with Diet and Nutrients**  
*International Ballroom*  
Moderator: Jeffrey Blumberg, PhD, FACN, CNS. USDA, Human Nutrition Research Center Tufts University, Boston, Massachusetts.

**Learning Objectives:**
- Appropriately utilize the ketogenic diet as a therapeutic anti-inflammatory intervention
- Choose appropriate phytochemical therapies for inflammatory states
- Utilize biomarkers for the assessment and management of systemic inflammation
- Utilize the IF Scale for the evaluation and management of systemic inflammation

Treatment of Secondary Hyperparathyroidism (S-Hpt) after Gastric Bypass (RYGB) IN PREGNANCY. Lisa P Haverstick, RDN, CNCS, Michael Rothkopf, Amrita Sawhney. Morristown Medical Center, Morristown, NJ. 39

Pseudohypercupremia Due to Abnormal Copper Protein Transport. Michael Rothkopf, Amrita G. Sawhney, Lisa P. Haverstick. Morristown Medical Center, Morristown, NJ. 40

More Effective In Type 2 Diabetic Study Participants With More Central Adiposity. Korbua Srichaikul, Arash Mirrahimi, Laura Chiavaroli, John Sievenpiper, Russell de Souza, Livia Augustin, Cyril Kendall, David Jenkins. Faculty of Medicine, University of Ottawa, Ottawa Department of Nutritional Sciences, Faculty of Medicine, University of Toronto, Toronto, ON, Canada. 41

Prebiotic Effect of a Formula Supplemented with Galacto-Oligosaccharides in Term Infants: a Randomized Clinical Trial. M Giovannini1, E Verduci, D Gregoriz2, S Ballali2, S Soldi3, G Banderali1, D Ghisleni1, E Riva1. 1Department of Pediatrics, San Paolo Hospital, University of Milan, Milan, Italy. 2Unit of Biostatistics, Epidemiology and Public Health, Department of Cardiac, Thoracic and Vascular Sciences, University of Padova, Italy. 42
POLICY ON DISCLOSURE

As a sponsor accredited by ACCME, it is the policy of ACN to require faculty to disclose the existence of any relevant financial relationships with the manufacturer(s) of any commercial product(s) or service(s) that are discussed in their presentations. Disclosures are provided below.

FACULTY DISCLOSURE STATEMENTS

All speakers, moderators and presenters have disclosed that they will not be discussing unlabeled or unapproved usage of drugs or products.

Richard A. Anderson, PhD, FACN has indicated that he is a consultant for Integrity Net, Nutraceuticals International, Spring Hill, TN

Richard Black, PhD has indicated that he is an employee of PepsiCo.

Jeffrey Bland, PhD, CNS, FACN has indicated that he has no financial relationships with any ACCME defined commercial interests.

Jeffrey Blumberg, PhD, CNS, FACN has indicated that he is a consultant for Herbalife, Pfizer, and Pharmavite.

Robert A. Bonakdar, MD has indicated that he has received a grant from Johnson & Johnson and is a consultant for Quadrant Healthcomm.

Jonathan Bowden, PhD, CNS has indicated that he has no financial relationships with any ACCME defined commercial interests.

Nancy Cotter MD, CNS, FACN has indicated that she has no financial relationships with any ACCME defined commercial interests.

Beatrice Golomb, MD, PhD has indicated that she has no financial relationships with any ACCME defined commercial interests.

Mimi Guarneri, MD, FACC has indicated that she is on the speaker’s bureau for Abbott and GlaxoSmithKlein.

Mark C. Houston, MD, FACN has indicated that he received a research grant from Biotics, Neogenics and is a consultant/speaker for Thorne, Biotics, Designs for Health.

Joan Ifland, PhD, MBA has indicated that she has no financial relationships with any ACCME defined commercial interests.

Russell M. Jaffe, PhD, MD, FACN has indicated that he received a research grant from Elisa/Act Biotechnologies and is employees of Perque Integrated Health.

David Kiefer, MD has indicated that he has no financial relationships with any ACCME defined commercial interests.

Richard B. Kreider, PhD has indicated that he received a research grant from Curve International, Anderson Group, and is a consultant for Woodbolt International.
POLICY ON DISCLOSURE, Continued

Miguel A. Martinez-Gonzalez, MD has indicated that he has no financial relationships with any ACCME defined commercial interests.

Deanna Marie Minich, PhD, FACN, CNS has indicated that she is a consultant for Personalized Lifestyle Medicine Institute.

Harry G. Preuss, MD, MACN, CNS has indicated that he is a consultant for Neway International.

Rita Raman, MD, MACN has indicated that she has no financial relationships with any ACCME defined commercial interests.

Monica Reinagel, MS, CNS has indicated that she is a consultant for Looking Glass, Inc., distributor of a mobile application (IF Tracker) which utilizes the IF Rating system.

Yoram Shir, MD has indicated that he has no financial relationships with any ACCME defined commercial interests.

Artemis Simopoulos, MD, FACN has indicated that she has no financial relationships with any ACCME defined commercial interests.

Stephen Sinatra, MD, FACN, CNS has indicated that he is a consultant for Healthy Directions.

Michael Stone, MD has indicated that he has no financial relationships with any ACCME defined commercial interests.

Gary Taubes, MS has indicated that he has no financial relationships with any ACCME defined commercial interests.

Beverly B. Teter, PhD, MACN, CNS has indicated that she has no financial relationships with any ACCME defined commercial interests.

COURSE PLANNERS' DISCLOSURE STATEMENTS

Corinne Bush, MS, CNS has indicated that she has no financial relationships with any ACCME defined commercial interests.

Dana Reed, MS, CNS, CDN has indicated that she has no financial relationships with any ACCME defined commercial interests.

Michael Rothkopf, MD, FACN has indicated that he has no financial relationships with any ACCME defined commercial interests.

Michael Stroka, JD, MBA, MS, CNS, LDN has indicated that he has no financial relationships with any ACCME defined commercial interest

Beverly B. Teter, PhD, MACN, CNS has indicated that she has no financial relationships with any ACCME defined commercial interests.
